## Sign up for CurrentCare

**CurrentCare** is a free service to keep all of your health records in one place.

Your information is then made available to your doctors and others who treat you and make decisions about your care.

By signing up for CurrentCare, you can save time, discomfort and expense from having to repeat x-rays or lab testing because this information will be readily available. Sign up now at [CurrentCareRI.com](http://CurrentCareRI.com)!
