## More info. Multiple sources.

CurrentCare for Me connects your medical information from multiple providers – Primary care, specialists, hospitals, and more. And puts it in one place for you.

CurrentCare for Me was created by the healthcare community as a free service to connect you to better health.

**CurrentCare for Me helps you stay in direct contact with your own healthcare.**

## CurrentCare for Me gives you the ability to:

- Track and double check medications your doctor has prescribed
- Look up lab/test results such as blood work, xrays, MRIs, etc.
- Download and send your records to caregivers, family members and providers

## BENEFITS

- Peace of mind knowing you can access your medical information online 24/7 from anywhere
- Track your own health and healthcare
- Better manage care and advocate for family members
- Avoid duplicate tests and procedures (which can save time and money!)
- Avoid prescription errors
